The Saving of

Money by the use of Royal Baking Powder is considerable. Royal is eco-

nomical, because it possesses more leavening power and goes further.

Royal saves also because it always makes fine, light, sweet food; never wastes good flour, butter and eggs.

More important still is the saving in hearth. Royal Baking Powder adds anti-dyspeptic qualities to the food,

of material. Many a man will be deceived by a rly made but worthless cost, looks not too bad, feels all right, but after a little wear it loses ahape, forgets its neat appearance and ge's baggy and alouchy, thread-bare and shabby. The rise in wool values has put lots and lots of just such coats on the market-gross deception that deceive any but the mest expert eye. Our coats are different, they're reliable—they retain their handsomeness till there's no more wear in them-and that's a long, long time.

Onr Coats are New. That's a positive and undeniable truth sustained by the garments themselves. They are " just made" coats, built for this season's wear by the best makers in the country. That fact insures absolute correctness of fashion with an unflinching strength of cloth, seams, stitches and linings.

It is the high quality of Royal Baking Powder that has established its great and world-wide reputation.

Every housewife knows she can rely upon it; that it makes the bread and biscuit more delicious and wholesome-always the finest that can be baked.

It is economy and every way better to use the Royal, whose work is always certain, never experimental.

There are many imitation baking powders, made from alum. They may cost less per mound, but their use is at the cost of health.

is for Men. We lay great stress on the purity of material. Many a man will be deceived by a cleverly made but worthless coat, looks not too bad, feels all right, but after a little wear it loses shape, forgets its neat appearance and ge's baggy and slouchy, thread-bare and shabby. The rise in wool values has put lots and lots of just such coats on the market-gross deception that deceive any but the mest expert eye. Our coats are different, they're reliable—they retain their handsomenous till there's no more wear in them-and that's a long, long time.

Our Coats are New. That's a positive and nudeniable truth sustained by the garments themselves. They are "just made" coats, built for this season's wear by the best makers in the country. That fact insures absolute correctness of fashion with an unflinching strength of cloth, seams, stitches and linings.

of material. Many a man will be deceived by a cleverly made but worthless coat, looks not too bad, feels all right, but after a little wear, it loses shape, forgets its neat appearance and ge's baggy and alouchy, thread bare and ababby. The rise in wool values has put lots and lots of just such coats on the market-gross deception that deceive any but the mest expert eye. Our coats are different, they're reliable—they retain their handsomeness till there's no more wear in them-and that's a long, long time.

Our Coats are New. That's a positive and undeniable truth sustained by the garments themselves. They are "just made" coats, built for this season's wear by the best makers in the country. That fact insures absolute correctness of fashion with an unflinching strength of cloth, seams, stitches and linings.

Our One Idea

of material. Many a man will be deceived by a vily made but worthless coat, looks not too bad, feels all right, but after a little wear it loses shape, forgets its neat appearance and go's baggyand slouchy, thread bare and shabby. The rise in wool values has put lots and lots of just such coats on the market-gross decoption that deceive Tany but the mest expert eye. Our coats are different, they're reliable—they retain their handsomeness till there's no more wear in them and that's a long, long time.

Our Coats are New. That's a positive andundeniable truth sustained by the garments themselves. They are "just made" ooats, built for this season's wear by the best makers in the country. That fact insures absolute correctness of fashion with an undinching strength of cloth, seams, stitches and liniuga.

This is health.

When weak, in low spirits,
no cheer, no spring, when rest
is not rest and sleep is not
sleep, we are starved; our blood
is poor; there is little nutriment in it.

Back of the blood, is food back of the blood, is food to keep the blood rich. When it fails, take Scott's emulsion of cod-liver oil. It sets the whole body going again—man woman and child.

ALTERATIONS.

You will scarcely know our store when we get the alterations now in progress all com-pleted. We have been very much cramped for room for some time past, our steadily license, ing trade demanding more space. We bought the large Satory building adjoining, our, old premises on the south and that is now fitted up with a large stock of high class HATS AND progressions on the SAT SATOR premises on the south and that is now fitted ; FURNISHINGS FOR MEN AND BOYS.

We are teering down walls, pulling out partitions, putting in new counters and shelf-ing and when all is donor so will have a thoroughly modern store with a frontage of, 07 feet, garge thow a undows and 3 entrances, and running back to a depth of 150 feet.

The people of this diffrict have been very kind to us in the past by giving us a large thare of their patronice. They have appreciated our efforts to bring them muser, room, run anxionarcuments in Europe, the United States and Canada is thoroughly assorted stock of high class Dry Goods at moderate prices. This we have been cloing for the past 45 years, seeding our layers twice each year to the European imately, and by this means arounce AL MINDLES MEN'S PROVETS which is an often the cause of such high prices being charged for goods.

During alvirations we are offering remarkable bargains to reduce stock. Note our special prices on the remainder of our Ladies' and Children's Jackets.
